

UKLAP Grade 2 Assessment & Report

Azimuth Nautical Solutions provides a UK Legal and Administrative Processes (UKLAP) Grade 2 Assessment & Report service for companies who are required to evaluate Officers on their UKLAP knowledge at Grade 2 level and maintain a record of satisfactory test completion.

Any officer working on board a UK-registered vessel who does not have a UK Certificate of Competency (CoC) must have a Certificate of Equivalent Competency (CEC).

To be eligible to hold a UK CEC, the UK Maritime & Coastguard Agency (MCA) advises in MSN 1867(M) that all Chief Mates, Chief Engineers and Second Engineers need to have knowledge of UKLAP to enable safe and efficient vessel operation in compliance with UK regulations.

All owners and operators of UK vessels are responsible for ensuring that their officers have this knowledge. Chief Mates, Chief Engineers and Second Engineers need to have knowledge of UKLAP equivalent to Grade 2 and must be assessed by their company, with the test details being kept on record in the company office for inspection by MCA.

UKLAP Grade 2 Assessment & Report

Each candidate will be provided with guided learning materials to aid their preparation in advance of the formal assessment. When a candidate is fully prepared, a 1-hour UKLAP Grade 2 Oral assessment will be undertaken to evaluate knowledge of the following:

- List of Certificates and Documents required to be carried on a UK flagged vessel
- Role and function of the MCA
- Provision of Muster, Drills and Training on board
- Provision of Health and Safety on UK ships
- An outline knowledge of entries to be made in Official Log Book

Following completion of the assessment, both the company and candidate will receive a copy of the formal Assessment Report, which confirms the assessment outcome and can then be retained on record as required by MCA.

Azimuth Nautical Solutions Ltd. specialises in compliance-related consultancy services and maritime training courses for the shipping, superyacht and ports sectors. Our portfolio includes ISM/ISPS audits, SMS development and project management services, as well as courses in ISM safety management, ISPS security management and maritime management.

All of our trainers are experts in their respective fields, with many years of experience in the maritime sector; at sea, as surveyors / inspectors and in senior roles ashore. Azimuth can provide tailored courses to help improve safety, security and overall compliance. We currently provide training solutions to Flag State administrations, shipping companies, seafarers, legal and insurance firms and other maritime sectors.
