

## Emergency Readiness Assessments

Azimuth Nautical Solutions provides a comprehensive Emergency Readiness Assessment Service to vessels, management companies and owners in the commercial maritime, cruise and superyacht sectors.

This service is designed to assist clients in meeting the ISM, ISPS and REG Yacht Code requirements for contingency and emergency readiness evaluations to be conducted at regular intervals.

To determine the emergency response capability of a vessel, our assessment exercises are tailored to meet your company procedures and focus on command and control, emergency response organisation, vessel operations, external liaison and human resource management.

Our multi-disciplinary teams utilise their extensive marine and company management experience to provide credible and challenging scenarios, which cover an array of aspects likely to be present in the real event. Examples of such situations may include:

- Collision at sea
- Grounding in port approaches
- Breach of watertight integrity
- Fire in critical operational spaces
- Loss of command centre or muster station
- Mass casualty incidents
- Security alerts/emergencies
- Evacuation from the vessel

After undertaking appropriate assessment exercises and testing associated procedures, our consultants can provide recommendations for improvements to the vessel's emergency procedures, as well as guidance and training to those involved in the exercises. If required, our teams can also assist companies in refining their emergency response protocols, both aboard and ashore.

Azimuth Nautical Solutions Ltd. specialises in compliance-related consultancy services and maritime training courses for the shipping, superyacht and ports sectors. Our portfolio includes ISM/ISPS audits, SMS development and project management services, as well as courses in ISM safety management, ISPS security management and maritime management.

All of our trainers are experts in their respective fields, with many years of experience in the maritime sector; at sea, as surveyors / inspectors and in senior roles ashore. Azimuth can provide tailored courses to help improve safety, security and overall compliance. We currently provide training solutions to Flag State administrations, shipping companies, seafarers, legal and insurance firms and other maritime sectors.
