

MARINE CASUALTY INVESTIGATION AWARENESS COURSE

This professional development course provides company managers and senior officers with an appropriate level of Marine Casualty Investigation Awareness and enhanced knowledge of the framework for maritime casualty investigation.

Specific expertise will be gained on issues such as legal considerations, the human element, collection of evidence, analysis of data and compilation of investigation reports. The course is also intended to provide for the exchange of experience and thoughts between colleagues.

The 3-day version of the course is designed for maritime casualty investigators who are new to the field, while the 1-day and 2-day course options are for those wanting to gain general understanding of the process.

COURSE OBJECTIVES

- Familiarisation with the background to marine casualties and incidents
- Understand international obligations to carry out casualty investigations
- Differentiate between different types of investigations
- Understand how to conduct marine accident investigations
- Appreciate the human element in maritime casualties
- Identify how to determine findings and recommendations
- Understand implementation issues

COURSE BENEFITS

- Individuals will enhance their knowledge about the framework of maritime casualty investigations
- They will gain specific expertise on issues such as legal considerations, the maritime casualty investigation process, data analysis and the human element
- The company will acquire a good understanding of the marine casualty investigation processes, and be better prepared in the unfortunate event that an incident occurs

Azimuth Nautical Solutions Ltd. specialises in compliance-related consultancy services and maritime training courses for the shipping, superyacht and ports sectors. Our portfolio includes ISM/ISPS audits, SMS development and project management services, as well as courses in ISM safety management, ISPS security management and maritime management.

All of our trainers are experts in their respective fields, with many years of experience in the maritime sector; at sea, as surveyors / inspectors and in senior roles ashore. Azimuth can provide tailored courses to help improve safety, security and overall compliance. We currently provide training solutions to Flag State administrations, shipping companies, seafarers, legal and insurance firms and other maritime sectors.
