

PORT FACILITY SECURITY OFFICER

This 3-day Port Facility Security Officer (PFSO) course is aimed at those who may be designated to perform the associated duties and responsibilities of a PFSO, as defined in section A/2.1.8 and section A/17.1 of the International Ship and Port Facility Security (ISPS) Code.

It includes maintaining and updating Port Facility Security Plan arrangements and interfacing with Ship Security Officers, Company Security Officers and Government Administrations. The course can be delivered at company premises or another agreed location globally, and upon successful completion of the training course, delegates will receive a PFSO training certificate recognised by the UK Department for Transport.

COURSE OBJECTIVES

On successful completion of the course, delegates should be able to:

- Conduct an initial comprehensive security survey of the port facility, considering the relevant assessment process
- Ensure the development, implementation and maintenance of the port facility security plan
- Undertake regular inspections of the port facility to ensure the continuation of appropriate security measures
- Recommend and incorporate modifications to the port facility security plan to correct deficiencies
- Enhance security awareness and vigilance of the port facility personnel
- Ensure adequate training has been provided to personnel responsible for the security of the port facility
- Report to the relevant authorities and maintain records of occurrences which threaten the port's security
- Co-ordinate implementation of the port security plan with the appropriate Company and ship security officer(s)
- Assisting ship security officers in confirming the identity of those seeking to board the ship when requested

COURSE BENEFITS

- Delegates will have gained a good understanding of the ISPS Code, its importance, their role within it and appreciation of current security threats and risks to maritime operations
- Acquiring the skills needed to conduct comprehensive port security assessments, ensuring development, implementation, continued improvement and maintenance of an effective port facility security plan
- Delivered by experts with International safety and security management, compliance and verification experience in an engaging interactive style, with a variety of security and safety related scenario case study workshop exercises

Azimuth Nautical Solutions Ltd. specialises in compliance-related consultancy services and maritime training courses for the shipping, superyacht and ports sectors. Our portfolio includes ISM/ISPS audits, SMS development and project management services, as well as courses in ISM safety management, ISPS security management and maritime management.

All of our trainers are experts in their respective fields, with many years of experience in the maritime sector; at sea, as surveyors / inspectors and in senior roles ashore. Azimuth can provide tailored courses to help improve safety, security and overall compliance. We currently provide training solutions to Flag State administrations, shipping companies, seafarers, legal and insurance firms and other maritime sectors.
