

COMPANY SECURITY OFFICER (CSO)

This 3-day Company Security Officer (CSO) course is aimed at senior operational ship managers who may be designated to perform associated duties and responsibilities, as defined by sections A/2.1.7 and A/11 of the International Ship and Port Facility Security (ISPS) Code.

The course is based on the recommended guidelines of IMO Model Course 3.20 (2011 Edition) and IMO MSC/Circ.1154 '*Guidelines for the Training and Certification for Company Security Officers*' and can be delivered at company premises or another agreed location globally. On successful completion of the training course, delegates will receive a certificate that fulfils the Nautical Institute's recognition standards.

COURSE OBJECTIVES

Delegates will be able to undertake the duties and responsibilities of a Company Security Officer, identifying behaviour patterns of individuals likely to threaten security, detecting weapons and utilising security equipment and systems to ensure that ship security plans and associated documentation are maintained.

- Knowledge and understanding of the ISPS Code
- Evaluation of ship security vulnerability and threat assessment
- Ensuring appropriate security measures are implemented and maintained
- Understanding of maritime security policy to include mandatory rules and regulations
- Develop, maintain and supervise the implementation of the ship security plan
- Organisation of ship security audits and on scene security surveys and ship security plan management
- Effective communications with shipboard staff, senior management and flag administrations

COURSE BENEFITS

- Delegates will have gained a good understanding of the ISPS Code, its importance, their role within it and appreciation of current security threats and risks to maritime operations
- Individuals will acquire the skills needed to conduct comprehensive security assessments, ensuring development, implementation, and continued improvement of the Ship Security Plan
- Delivered by experts with International safety and security management, compliance and verification experience in an engaging interactive style, with a variety of security and safety related scenario case study workshop exercises

Azimuth Nautical Solutions Ltd. specialises in compliance-related consultancy services and maritime training courses for the shipping, superyacht and ports sectors. Our portfolio includes ISM/ISPS audits, SMS development and project management services, as well as courses in ISM safety management, ISPS security management and maritime management.

All of our trainers are experts in their respective fields, with many years of experience in the maritime sector; at sea, as surveyors / inspectors and in senior roles ashore. Azimuth can provide tailored courses to help improve safety, security and overall compliance. We currently provide training solutions to Flag State administrations, shipping companies, seafarers, legal and insurance firms and other maritime sectors.
